

# KASPOOL

EFFECTIVE COIN MINING POOLS

KASPOOL

# The Importance of Crypto

- Market Capitalization: Crypto reached \$1.17 trillion (2023), with Bitcoin and Ethereum leading the way.
- Trading Volume: Binance processes over \$76 billion per day.
- Users: 420 million people own crypto, with an increasing number of countries legalizing it.
- Blockchain Applications: Over 80% of major banks are investing in this technology.

# What is Kaspool ?

**Kaspool** is a platform for mining digital assets through coin mining pools. With a coin based on **Kaspa's DAG** technology, it represents a pioneering approach to enhancing performance without sacrificing decentralization.

**Kaspool** is committed to providing opportunities for quick and sustainable profits.

# WHY CHOOSE **KASPOOL**?

## 01 SHARES MINING PACKAGES WITH COIN MINING FARMS

**KASPOOL** is a pioneering cryptocurrency mining company established in 2021. It operates large mining pools located in various countries with low energy costs and favorable environmental conditions, such as Russia, Kazakhstan, and others.

The company has been mining multiple cryptocurrencies using leading algorithms, including Bitcoin, Litecoin, Kaspas, and ALPH, delivering stable profits based on the cyclical growth of the cryptocurrency market. As part of its long-term strategy, Kaspool has officially completed its roadmap and whitepaper to launch Kaspool Coin, a Layer-2 cryptocurrency on the Kaspas Blockchain, expected to foster a robust ecosystem in the near future.

## 02 EARN REWARDS IN USDT & KASPA

Kaspool not only offers opportunities to increase income but also helps investors mitigate risks from market price fluctuations.

Aiming to become a strong Layer-2 solution within the KRC20 Blockchain ecosystem, Kaspool provides services, utilities, and solutions tailored to user needs. Additionally, Kaspool implements a profit-sharing strategy from its Kaspas mining fund, enabling users to receive valuable rewards in USDT and KASPA.

### STRATEGIC ADVANTAGES:

- *Global expansion with optimized marketing costs.*
- *Fast and efficient user outreach.*
- *Enhanced value for participants through real-world profits from mining farms and the ecosystem.*
- *Kaspool is more than just a cryptocurrency mining platform; it is a comprehensive financial solution for investors and users worldwide.*

# KASPOOL

## Kaspool's Mining Journey and Competitive Landscape

Kaspool has been mining Kaspa and several other Proof-of-Work (PoW) coins, including Bitcoin and Litecoin, since 2022, starting when Kaspa was valued at \$0.003.

However, the global competition among mining farms is intense, particularly in terms of technology and mining efficiency. This highly competitive environment requires constant innovation and resources to maintain an edge.

To enhance mining efficiency and strengthen its position, Kaspool seeks additional funding from the community. This approach not only boosts operational performance but also enables Kaspool to hold coins for better opportunities in the future.

By collaborating with the community, Kaspool aims to improve its competitiveness, optimize its mining operations, and share benefits with investors and users alike.

# KasPool Project Overview

1

## OBJECTIVE:

Develop a sustainable digital mining ecosystem that is energy-efficient and delivers stable profits through modern mining technology and profit-sharing with the community.

2

## SOLUTION:

Mine in countries with low energy costs and suitable environments, combining POW + POS, applying AI in mining, and integrating high-performance combinations packaged as NFTs.

3

## VISION:

Create a strong and sustainable mining community through a diverse ecosystem, while enhancing the value of Kaspa coin, Kaspanet tokens, and the global cryptocurrency system.

# BlockDAG Technology

**Kaspool** utilizes the **BlockDAG** platform and references **GhostDAG** technology, which minimizes the waste of computational resources and creates parallel blocks. This enables the processing of a large volume of transactions without issues related to network congestion or orphan blocks.

## Key Products and Services

1

### KASPOOL COIN (KPL)

A Layer 2 coin of Kaspa with a fixed total supply of 28.7 billion coins, designed for mining and transaction activities within the ecosystem.

- 30% of the total supply is allocated for ecosystem development and community growth.
- 70% of the total supply is gradually mined through a unique proprietary algorithm that combines POW, POS, and the most advanced features of the current blockchain industry.

2

### KASPOOL MINING PHONE

- ❖ Supports Mining Tokens
- ❖ Provides Data for Depin AI (Decentralized Physical Infrastructure Networks with AI) – A decentralized data infrastructure network integrated with AI.
- ❖ International Payments Without Cards

3

### DEX AND CEX EXCHANGES ON KRC20 AND PRIVATE BLOCKCHAIN

- ✓ Decentralized and centralized trading ecosystems with transaction fees paid in KPL.
- ✓ Integrate KRC20's multidimensional information processing capabilities.

## Key Products and Services

4

### E-COMMERCE APPLICATION:

- ✓ Help global businesses reach customers without intermediary costs.
- ✓ Offer high discounts when paying with KPL.
- ✓ Ensure customer shopping behavior information security.
- ✓ Minimize annoying spam advertisements for users.

# → Key Products and Services

5

## HIGH-PERFORMANCE NFTS:

- ❖ Enhance mining efficiency by optimizing capital and equipment resources. These combinations are uniquely identified and exclusively owned through NFT verification on the blockchain.
- ❖ Users can own an entire "mining farm" through NFTs.

6

## KPOOL CAPITAL

- ❖ Invest in High-Potential Blockchain Projects
- ❖ Invest in Storing High-Potential Coins/Token
- ❖ Invest in Emerging Technologies in the Blockchain Industry

# Project Development Roadmap

PHASE 1

PHASE 2

PHASE 1

PHASE 4

PHASE 5

**Kickoff**  
(Q4 - 2024)

1

Market Research: Analyze technical requirements, identify energy partners, and prepare infrastructure in strategic countries.

2

Mining Platform Development: Build the first mining pools in Russia, Kazakhstan, and other regions.

# Project Development Roadmap

PHASE 1

PHASE 2

PHASE 3

PHASE 4

PHASE 5

**Project Launch and  
KPL Distribution  
(Q1 - 2025)**

- Announce Roadmap and Whitepaper: Present detailed strategies, products, and services of the project.
- Launch Company Website: Share market development strategies and community collaboration benefits.
- Airdrop KPL Token: Release airdrop to build the initial community and attract attention.
- Seed, Private Sale, and ICO Program: Implement sale rounds as planned.
  - Daily Token Unlock for 3 Years, with a 2-day cycle
  - Unlock 30 Days After Listing on Exchanges

# Project Development Roadmap

PHASE 1

PHASE 2

PHASE 3

PHASE 4

PHASE 5

## Product Launch and Ecosystem Expansion

- Launch KASPOOL WALLET (**Q1 – 2025**)
- Launch Kpool Capital (**Q1 – 2025**)
- Listing on Exchanges (**Q2 – 2025**)
- Create Gaming and Trading Ecosystem (**Q2 – 2025**)
- Launch Kaspool Mining Phone (**Q2 – 2025**)
- Launch DEX and CEX on KRC20 (**Q3 – 2025**)

# Project Development Roadmap

PHASE 1

PHASE 2

PHASE 3

PHASE 4

PHASE 5

Strengthen the  
Community and  
Optimize Mining  
(2026):

1

Enhance Mining Efficiency:  
Launch high-performance  
NFTs and implement  
technological advancements  
in mining.

2

Expand Mining Pools:  
Invest in pools located in  
other countries with energy  
advantages.

# Project Development Roadmap

PHASE 1

PHASE 2

PHASE 3

PHASE 4

PHASE 5

Complete the  
Ecosystem and List  
on Major Exchanges  
(2027):

1

Expand the KPL Ecosystem:  
Develop additional features  
and products to serve the  
user community and  
partners.

2

Listing on Other Large and  
Reputable Exchanges:  
Increase KPL's visibility  
and liquidity.

# Development and Marketing Strategy

- Initial Marketing Campaign: Create brand recognition with airdrop programs, community events, and affiliate marketing.
- Major Partners:
  - Collaborate with partners in countries with energy advantages.
  - Optimize mining technology to increase profitability.
- Long-term Development Strategy:
  - Ensure the provision of stable products and services.
  - Enhance community benefits.
  - Attract long-term investors and users.

# » Advantages for Investors

1

Stable profits: Clear ROI with low mining costs.

2

High security: DAG technology protects assets.

3

High liquidity: Easily exchangeable on major exchanges.

# → Financial Orientation

## **Capital Sources:**

- Internal Company Capital
- Token Sale Rounds: Pre-sale, Seeding Sale, Private Sale, ICO, etc.
- Profit Sharing from Mining with the Community

## **Profit:**

- Collaborate with the community to share profits, while continuing to develop a diverse ecosystem to increase revenue.

## **Reinvestment:**

- Expand mining infrastructure, develop new products, and enhance competitiveness in the cryptocurrency mining market.

# KASPOOL Ecosystem

1

Investment system for joint mining  
pools at **Kaspool.io**

2

KasPool Wallet - Multi-platform wallet

3

KasPoolChain - Private blockchain

4

KasExchange - Decentralized  
exchange for managing and trading  
digital assets

5

Platform for developing decentralized  
applications for users

KPL COIN  
with Total  
Supply  
28,700,000,  
000

TOKENOMICS

Pre-Mined	8,610,000,000	30%	Partially pre-mined, allocated for investors, community development, and ecosystem application development	
DevTeam and Advisor	2,009,000,000	7%	Not unlocked for a period of 3 years	
Airdrop	287,000,000	1%	Marketing and Ecosytem	23%
PreSale	861,000,000	3%		
Seeding	1,435,000,000	5%		
Private Sale	2,009,000,000	7%		
ICO	2,009,000,000	7%		
Community	20,090,000,000	70%	Gradually mined by the community through specialized machines or mining-enabled phones, with the output halving each year	

# EXPECTED ALLOCATION OF FUNDS FOR THE ECOSYSTEM

Category	Percentage (%)	Amount (coins)	Notes
Multi-chain Wallet Development	12%	3.444 billion	For research, development, and maintenance of a multi-chain wallet supporting various blockchains.
Exchanges (CEX + DEX)	13%	3.731 billion	Development and operation of centralized and decentralized exchanges (CEX and DEX), supporting liquidity, P2P transactions, reducing fees, and enhancing security.
Mining Equipment Production	12%	3.444 billion	Production of mining-enabled phones and devices to expand the Kaspool ecosystem
Blockchain Game Development	8%	2.256 billion	Research and development of interactive games based on blockchain technology.
Technology Upgrades & Research	12%	3.444 billion	Investment in improving performance and developing new technologies, enhancing protocols.
Kpool Capital Investment Fund	8%	2.256 billion	Creating an investment fund to support potential blockchain projects and develop the Kaspool ecosystem.

# Mining Pool - Profit Sharing
